Hostile Environment Readiness Training (HERT) Programme

Elite Security Expertise. Proven in the Field. Tailored for You.

At Special Projects Group, we're more than a security provider, we're your trusted strategic partner. Our team is made up of elite professionals with operational roots in the UK Royal Marines Commandos, Special Forces Support Group (SFSG), Private Security, and Law Enforcement. We bring that experience to the front lines of your business, delivering practical, battle-tested solutions to today's most pressing security challenges.

What We Do

We specialise in bespoke Security Training and Consultancy Services designed to protect what matters most, your people, assets, and reputation. Whether you're facing emerging threats, operational vulnerabilities, or complex environments, our team delivers insight-driven strategies aligned with your mission.

How We Do It

- Decades of real-world operational expertise
- Intelligence-led, modern approach to risk
- Solutions built to your specific operational goals
- Proactive resilience-building, not reactive fixes

Why It Works

We don't offer off-the-shelf solutions. Every recommendation, training module, and strategy is custom-built or tailored for your organisation, blending strategic foresight with tactical precision. From corporate environments to hostile regions, we've been there. Now we're here to help you stay ahead, stay prepared, and stay secure.

About the HERT Programme

Our Hostile Environment Readiness Training (HERT) Programme is designed to equip individuals and teams with the essential skills and knowledge needed to operate safely and effectively in low and medium-threat, to high-threat, complex environments.

Tailored to the unique needs of security and close protection personnel, NGO staff, corporate travellers, and media professionals, our courses cover multiple disciplines including anti-kidnap and targeting indication detection, CONDO, HEAT, and HECPO Training.

Whether deploying to conflict zones, disaster-struck regions, or politically unstable areas, participants gain practical, scenario-based training to enhance resilience, decision-making, and operational readiness. Contact us today to see how we can provide a tailored solution, specific to your operational needs.
