## About SPG

At Special Projects Group we are a team of elite professionals with backgrounds in the UK's Royal Marines Commandos, Special Forces Support Group (SFSG), Private Security, and Law Enforcement. Our core mission is to build partnerships, supporting businesses and organisations in addressing today's most complex security challenges and environments. We do this by delivering trusted, bespoke, high-quality Security Training and Consultancy Services that are strategically aligned with your operational objectives.

Leveraging extensive experience from decades of operational experience, combined with a modern, intelligence-led approach, we provide expert guidance that helps safeguard your assets, mitigate risk, and enhance organisational resilience. By combining specialist expertise with a forward-thinking approach, we equip our clients with the knowledge, capability, and confidence to proactively address security challenges, protect critical assets, and build long-term resilience.

## About the N-VSAT Programme

In the world of security, the ability to interpret and utilise body language and non-verbal communication (NVC) is more than a skill, it's a game-changing advantage. For Military Personnel, Law Enforcement Officers, and Security Specialists, mastering non-verbal cues can mean the difference between diffusing a threat and escalating it. Our **Non-Verbal Situational Awareness Training (N-VSAT) Programme** empowers operators to decode unspoken messages, establish authority, and navigate high-pressure situations with precision and confidence.

By honing the ability to detect subtle shifts in body language, facial expressions, and behavioural patterns, participants gain a heightened situational awareness that is crucial for threat assessment and conflict resolution. This training isn't just about reading others; it's about communicating effectively without words. Whether building trust, asserting control, or managing tense encounters, non-verbal communication becomes a powerful tool in every operator's arsenal. With N-VSAT, you'll transform how you perceive, respond, and lead in the most challenging environments. Discover how our training can enhance your situational awareness, elevate your presence, and equip you with the skills to succeed in any scenario. Contact us to learn more about the N-VSAT Programme.
